

**ANNOTATION**  
**on the investment project**  
**«Honeycombed sheet polycarbonate production organization**  
**on Free Economic Zone Gomel-Raton territory»**

The investment project “Honeycombed sheet polycarbonate production organization on FEZ Gomel-Raton territory” is developed in order to find investor to organize and develop the production of honeycombed sheet polycarbonate from 4 to 20 mm thick of the following dimensions 2 100 x 6 000 mm and 2 100 x 12 000 mm.

Terms of the project realization is 5 years, dynamic terms of recoupment is 3 years and 6 months.

The project is at pre-investment stage: preliminary design estimates are done, business plan is developed, production technology is defined.

The enterprise organization with registration as a FEZ Gomel-Raton resident is planned. To realize the planned production program a new automatic line for honeycombed sheet polycarbonate production will be acquired from Italian company OMIPA.

By the end of the third year the enterprise will reach the planned production capacity which comes up to 1 560,2 thousands square meters. The product will be in demand at the national as well as at international markets.

Export will comprise not less than 50% of the realized product.

It is planned to create 39 new working places.

There are available production premises (2 810 square meters) with all necessary infrastructure and engineer communications for the project realization.

The project investments total to EUR4,278mln., including EUR2,645 mln. of capital investments, EUR1,42 mln. for replenishment of working assets.

Profit from the project realization will come to EUR52,54 mln., product profitability will be not less than 22%, sales profitability – 17%.

Realization of the project under the favorable climate of FEZ Gomel-Raton will let the investor save EUR5,218 mln. at tax and customs incentives.
