

**ANNOTATION**  
**on the investment project "Organization of CD-R and DVD-R production,  
CD-R and DVD-R box production within FEZ Gomel-Raton territory"**

The investment project "Organization of CD-R and DVD-R production, CD-R and DVD-R box production within FEZ Gomel-Raton territory" has been developed to attract a foreign investor to set up the production and packing of data carriers (CD-R, DVD-R) on FEZ Gomel-Raton territory. Presently, there is no analogous production in the Republic of Belarus. There are vacant production premises available for project realization (not less than 4 000 sq.m.) with necessary infrastructure and necessary engineer communications.

The project is at the preinvestment stage: the preliminary feasibility research has been done, business plan has been worked out, production technology and list of the main equipment necessary for production process have been determined. So that the production may be set up it is necessary to acquire production line STEAG Hama Tech DVD-R 3503 for CD-R and DVD-R production as well as the equipment to produce boxes.

The period of project realization is 5 years; the period of recoupment is 5 years. The total amount of the attracted investments according to the project is USD6,631 mln. including USD6,086 mln. of fixed investments and USD0,545 mln. for replenishment of circulating assets.

The main activity of the enterprise is data bearers manufacturing and their packing. By the end of the second year the production capacities will have been mastered taking into account a 3-shift operation of equipment. Not less than 36 workplaces will be created. During the period of project realization it is forecasted to produce 25,346 mln. of CD-Rs, 22,135 mln. of DVD-Rs and 19,965 mln. of boxes for both CD-R and DVD-R. The proceeds of the products sale will amount to USD20,335 mln., net profit will amount to USD8,449 mln.

The main advantage of the project is its export orientation, not less than 90% of the products will be delivered to the markets of the CIS-countries mainly to the Russian Federation.

In case of the project realization on the territory of Free Economic Zone Gomel-Raton by a FEZ resident an investor will get a possibility to increase the efficiency of investments and capital recoupment.
